Water Check Program

WATERCHECK

A USU EXTENSION PROGRAM

WATER CHECK PROGRAM

Water Checks are offered in **select locations** in Utah from mid to late May through late August and provide customized pressurized sprinkler irrigation schedules for existing turf areas to identify strategies and improvements for water conservation. Use the **signup form at the bottom of this page** to be added to the database.

There is **no charge** to you for this service.

For more information please contact: **watercheckprogram@usu.edu**

PLEASE NOTE: The Center for Water Efficient Landscaping does **not** test **drip irrigation** systems and does **not provide** landscape evaluations or consultations.

Water Check teams work Monday through Friday (except holidays) in two-hour time blocks from 8 AM-5 PM.

When And Where Are Water Checks Available?

WATER CHECK SERVICE AREA

Water Checks are available through the summer months, beginning in May through the end of August for:

- **Salt Lake City Department of Public Utilities service area** (Salt Lake City, Millcreek, parts of Holladay, Cottonwood Heights, and a small part of Murray that is served by SLC Department of Public Utilities)
- Sandy City

For the following counties, please **contact your USU County Extension office**.
